V. PERSONAL APPEARANCES

A. Dr. Hinchman

Dr. Hinchman is making his first quarterly appearance of 2010 and will continue to make appearances on a quarterly basis to update the Board on PRN business and other issues that he deems pertinent to the Board's deliberations and business. Prior to this meeting he provided a pamphlet on certain OTC drugs and their impact on patients with abuse problems. He also discussed three ongoing cases which he has been monitoring, including: Tom Goodge, Mark Huntzinger, and James Sedam. He most recently spoke with Mr. Goodge in December and was pleased to report he is doing well and he continues to be successful in his recovery. With respect to Mr. Huntzinger, Dr. Hinchman is recommending the Board extend his PRN monitoring agreement. At this time, he is not sure he is ready to go back to work without being medicated before being placed in a pharmacy work environment. Finally, regarding Mr. Sedam, at this time, he is not in compliance with any of the terms of his probationary order and/or PRN Agreement. It is the understanding of PRN and the Board that he turned himself into the authorities over the weekend.

B. Compliance Officer Reports

- Report from Compliance Officer Wanda Levendoski:

Compliance Officer Levendoski reported that in the last month she has conducted several inspections on both hospital and retail pharmacies. She has not filed any consumer complaints this last period, but anticipates having several in the works as investigations continue over the course of the next month. She noted that the biggest violation she is encountering during inspections is pharmacy technicians not correctly answering the phones and properly identifying themselves. She is also noticing several pharmacies having problems with removing expired drugs from their shelves. Finally, she investigated a pharmacy technician program being offered and conducted in Indianapolis and northern Indiana (Merrillville) - based on tips and allegations there was concern that potential fraud was occurring and that the class was a scam. The Board had previously approved the program earlier in 2009 and Ms. Levendoski reported that she believed the program was legitimate following her investigation. She was subsequently invited to participate in the program to ensure validation.

- Report from Compliance Officer Zaneta Nunnally:

Compliance Officer Nunnally's monthly report included two remodels - both hospitals. She also did a review of the new Medco facility along with five out of seven of the members of the Board along with other Board staff members. She also recently spent time visiting Carter LaRue State Hospital, here in Indianapolis, to investigate a possible diversion case.

In general, from the inspections she is conducting, the main violations she is seeing are technicians not properly identifying themselves to patients/customers. Ms. Nunnally believes that this issue stems from a lack of training and proper supervision, and a certain level of laxity vis a vis enforcement of the rules, policies, and procedures of the pharmacy. Like Compliance Officer Levendoski, Ms. Nunnally too is seeing lots of expired meds not being properly removed from the stock. Finally due to the short month, she did not file any consumer complaints.

- Report from Compliance Officer Eric Percy:

Compliance Officer Percy reported that he had a light month largely due to the holidays. However, he did assist with some investigations involving stolen prescription pads. He is working with the physicians and local law enforcement to provide guidance and assistance. He is also helping to educate the physicians on the best practices and best ways to safe guard their prescription pads. He is also looking into some issues between vets and pharmacies concerning pet medications and how they may be sold and packaged.

- Report from Compliance Officer Tim Thomas:

Compliance Officer Thomas had a mostly routine month. He is spending a lot of time looking into USP 797 issues and helping to educate licensees on the requirements and proper compliance. By and large, the majority of licensees are still working on achieving compliance with these standards. Mr. Thomas also filed one consumer complaint this last month that was based on a DEA Form 106 that he received from a Muncie pharmacy.

C. Sangita Pandya – Repeat MPJE

Ms. Pandya was appearing before the Board today because of her request to again take the MPJE. This is a repeat attempt, and Ms. Pandya is seeking to take the MPJE for the third time. Ms. Pandya is a pharmacy graduate from India and just had difficulty understanding Indiana pharmacy law requirements. The Board encouraged Ms. Pandya to attempt to obtain some form study guide to assist her in studying for the MPJE. A motion was made by Board Member Wall and seconded by Board Member Landis to allow her to retake the MPJE.

Motion Carried 7-0-0

D. Lisa Millman – License Transfer Application

Ms. Millman appeared before the Board to request approval of her License Transfer Application. She had a positive response on her application and disclosed that she had been disciplined in her home state and other states for substance abuse issues. She was originally suspended and subsequently placed on probation in the State of Illinois following several failed drug screenings. She was successfully reinstated in 2007 and has been sober since 2006. She currently works through the State of Illinois's PRN Program and has several letters of support from Wally Cross and Resurrection Healthcare. She also disclosed that she has a license in the State of Michigan and that her license there is also in good standing. Ms. Millman is currently subject to random drug screens, and she is due to come off probation in Illinois in September 2010. She currently lives in Chicago and is seeking an Indiana license because she has been offered additional temporary work where she would drive down from Chicago and work through a temp agency in Indiana doing pharmacy work. A motion was made by Member Wall and seconded by Member Landis to approve the license transfer application and to place the applicant on a probation that follows and mirrors her Illinois probation. She can seek to lift her Indiana probation when she receives her Illinois license free and clear. The Board also would approve her to sit for the MPJE.

Motion Carried 7-0-0.

E. Christian Home Health Services Incorporated – HME Renewal

Board Member Anderson took this licensee aside and conducted a personal appearance and then made a recommendation to the full Board on the status of their HME renewal and explanation behind their positive response. The applicant explained that she had been wrongfully charged and exploited but as an RN had subsequently been disciplined by the Nursing Board which resulted in her positive response on her HME Renewal Application. She was wrongfully charged. The Board determined that her prior discipline had no bearing on her ability to operate as an HME. A motion was made by Board Member Anderson and seconded by Board Member St. Angelo to approve the HME Renewal Application.

Motion Carried 7-0-0.

F. Troy Group Inc. – Mike Trauscht

Mr. Trauscht appeared before the Board representing Troy Group Inc. Troy Group is an out-of-state vendor that provides printing solutions for hospitals and pharmacies. One of the services they provide is a printer that prints secure prescriptions that might all the CMS requirements for providing secure scripts for controls. However, to date, Indiana law does not make an allowance for the utilization of the techniques, security protocol, and paper that the Troy Group solution provides. They currently don't meet our requirements. The Board was very receptive to Mr. Trauscht's ideas and presentation. They encouraged Mr. Trauscht to perhaps consider working with our legislature to incorporate their idea into future legislation that would allow the Board to amend the standards for prescription security paper. Mr. Trauscht provided the Board with a power point presentation that is incorporated into these minutes by reference.

VI. MISCELLANEOUS

A. Board Director's Report

Staff just recently completed the renewal cycle for all CSRs and Pharmacy Permits. Renewals were largely successful with only a few minor issues concerning the Wal-Mart chain, and then several individual chain stores. The majority of issues were resolved to each party's satisfaction. Staff is continuing to educate our license holders about the ongoing requirements for license and permit posting and how to obtain and order additional and/or new cards. Stores renewing during the most recent cycle were printed cards for free but will be required to pay the additional fee at the next renewal cycle in two years (an allowance was made because the policy change occurred

during the middle of the last renewal cycle). In addition, the Board Director explained the enforcement policy for pharmacy staff that does not currently have physical licenses in their stores. A grace period has been implemented for new employees (or those waiting for already ordered cards), but following that grace period compliance officers will be issuing violations. Stores and/or employees having technical difficulty in receiving their ordered permits should contact Board staff.

B. New Registration Requirements for INSPECT

The Board discussed the new registration requirements for maintaining an INSPECT user account. Several Board members had received notification that they were being required to submit additional documentation to renew their user registrations for INSPECT. Among other things, they are now required to provide notarized written/physical documentation that they are an eligible practitioner and that they are who they say they are. These additional requirements and paperwork stem from recent decisions made by the Federal Government. As a recipient of federal funding, specifically the NASPER grants, INSPECT is required to collect and maintain this documentation for every user in order to remain eligible to receive grant funding.

The Board asked staff to work with licensees to better communicate these new requirements and to educate users of the system on the necessity for the additional documentation.

C. Pending Legislation

Board Director Wickizer reviewed several pending pieces of legislation that have been filed with the General Assembly that pertain to pharmacy. The issues being looked at included the following:

- Combating Meth Abuse – several bills have been introduced that would track and limit the sale of PSE products; the primary precursors for production of methamphetamine. Several of the solutions included a restriction in sale and some form of electronic reporting or tracking.
- Professional Practice/OAG Bill – the Attorney General's office is pushing legislation that would attempt to assist Boards and the OAG in prosecuting the unlicensed practice of a particular profession. It does not extend criminal authority to the Boards, but would allow them the power to go after individuals that are not licensed and pursue action in courts of general jurisdiction. (Deputy Attorney General Terry Richmond presented the Office of the Attorney General's position on this matter.)
- Professional Licensing/INSPECT Bill – the Agency in general is working with several legislators to pass a bill that, specific to the Board of Pharmacy, would eliminate CSAC and streamline efforts and policy making decisions with respect to CSR. The bill would also give authority over INSPECT to the Board from CSAC and allow INSPECT to collect additional data and be used by a wider range of individuals and government entities (most notable among them, the Medicaid program).
- Dispensing Bills and ID – there are also several bills that make changes to the communications that pharmacists are required to make between doctors and patients when dispensing drugs. Rule deals with generics, language issues on labels, and labels for the visually impaired.

VII. OLD/NEW BUSINESS

A. Officer Elections

President – A motion was made by Member Wall and seconded by Member Landis to nominate Board Member Lora Williams to the position of President of the Indiana Board of Pharmacy for a term starting in February 2010 and running through January 2011.

Motion Carried 7-0-0.

Vice President - A motion was made by Member Anderson and seconded by Member Landis to nominate Board Member Bill Cover to the position of Vice President of the Board Indiana Board of Pharmacy for a term starting in February 2010 and running through January 2011.

Motion Carried 7-0-0.

Board Action	A motion was made by Member Cover and seconded by Member St. Angelo to hold the Respondent in Default. Another motion was made by Member Cover and seconded by Member Anderson to revoke Respondent's Pharmacy Technician Certification.
Vote	Both Motions Carried <u>7-0-0</u>

IX. FINAL NOTES PRIOR TO ADJOURNMENT

- Loss Prevention Discussion - The Board discussed long term issues regarding loss prevention in the community pharmacy setting. Based on the complaints and investigations being conducted by the Attorney General's Office and Compliance Team, we are seeing increasingly large amounts of diversion in the community pharmacy setting. Diversion is occurring in the thousands of pills. Due to the nature of the inventory and loss prevention systems currently set up in the community pharmacy setting, these instances are being discovered, but it is only several months after the fact. The question is whether or not this is an Indiana issue alone, and whether we have established sufficient safeguards and requirements in our laws to help combat this problem. The Board asked that staff communicate with NABP and other states to inquire how this is being handled by other states, and whether they are experiencing similar issues.
- Responsibilities for the Qualifying Pharmacist – Along with the increasing diversion problems in community pharmacy, we are also seeing increased levels of conflict with qualifying pharmacists. We are seeing many instances where QP's are not properly managing their pharmacies or taking personal responsibility for the overall operation of their individual pharmacy. In discussion, the Board made clear that it is the QP that is ultimately responsible for the pharmacy, but what is not clearly delineated is what level and types of responsibilities that includes. Corporate chains in particular have attempted to shift this burden and make it a corporate responsibility which in turn has lessened individual responsibility in the individual store setting where problems are occurring. Board Member Fanning introduced the Missouri PIC Form and recommended the Indiana Board consider adopting something similar that clearly delineates a QP's job and responsibility vis a vis Indiana Pharmacy Law. This would be a document that they are required to sign and acknowledge before being permitted to be listed as that store's QP. (That form is incorporated into these minutes by reference.)
- Blue Card and Permit Discussion – The Board would like to review the policy regarding posting the blue card and license permits for pharmacy professionals and facilities. In particular, they would like to focus this discussion on students who are required to renew on an annual basis. The discussion is all the more pertinent this year given the recent policy change requiring all licensed professionals to separately order and pay for their physical licenses. Staff was instructed to set the discussion for the next meeting or the March meeting.
